

Northern California Sacro Occipital Technique Certification Series

SOT CATEGORIES PART ONE (12 Hours), October 26-27, 2024, Greensboro, North Carolina - In this hands-on seminar you will learn the anatomy and physiology of the three SOT category systems. You will also learn the comprehensive evaluation and assessment procedures for treating a sacroiliac joint instability disorder (category two) as well as care for the thoracolumbar, cervical, and cranial regions. No prerequisite.

SOT CATEGORIES PART TWO (12 Hours), November 30 / December 1, 2024, Greensboro, North Carolina - This hands-on seminar will cover all the treatment for lumbosacral disc herniations, piriformis muscle syndrome, and sciatica presentations (category three) and all of the treatments for sacroiliac joint fixation, pelvic torsion, and altered sacral nutation (category one), as well as care for the thoracolumbar, cervical, and cranial regions. No prerequisite.

SOT CHIROPRACTIC MANIPULATIVE REFLEX TECHNIQUE (CMRT) (12 hours), December 14-15, 2024, Greensboro, North Carolina - CMRT is a hands-on soft tissue technique that deals with the viscerosomatic reflex arc. It has a specific set of indicators – occipital fibers – that assist the practitioner in isolating the most dominant viscerosomatic/somatovisceral spinal reflex imbalance and, once that reflex is neutralized, specialized organ reflexes are applied to facilitate balance and function. No prerequisite.

SOT EXTREMITY TECHNIQUE (8 hours), January 11, 2025, Greensboro, North Carolina - SOT Extremity Technique integrates with the Category System when persistent extremity involvement inhibits the proper resolution of the category. The SOT Extremity Distortion Pattern focuses on the feet, ankles, knees, hips, shoulders, elbows, and atlas/axis. Included in this seminar is Zindler's extremity treatment of the lower and upper extremity. No prerequisite.
